

HÅG

Right now, a jewellery designer in Dubai is sitting on the same model HÅG Capisco® as an author in Norway. An Italian architect is pushing his HÅG Capisco® away from his drawing table, while a French painter is leaning in closer to his canvass. A dentist in Finland is leaning back, stretching after a long day, exactly the same way a stockbroker in New York does on his HÅG Capisco®.

Since 1984 HÅG Capisco® – the Saddle Chair™ – has been sold to 67 different countries. To students, surgeons, receptionists, engineers, lecturers, office workers, lawyers and computer experts. They all wanted the same thing - freedom to move and personal well being whilst achieving the best possible result at work.

HÅG Capisco®

The very first thing that strikes you when you look at a HÅG Capisco® is its wonderfully unique shape. It stands out from all other chairs in the world, with its arms stretched out, as if welcoming you to sit down. And then you see the Saddle Seat™. A seat shaped to inspire you to sit like the active horseman in his saddle, providing perfect freedom to move into new comfortable sitting positions. There is an undeniable feel of effortless comfort sitting in this chair. You truly feel the essence of the HÅG Capisco® philosophy – **The Best sitting position is always the Next.**

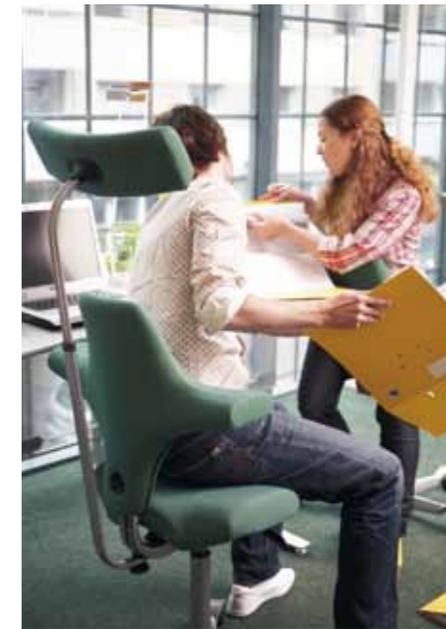

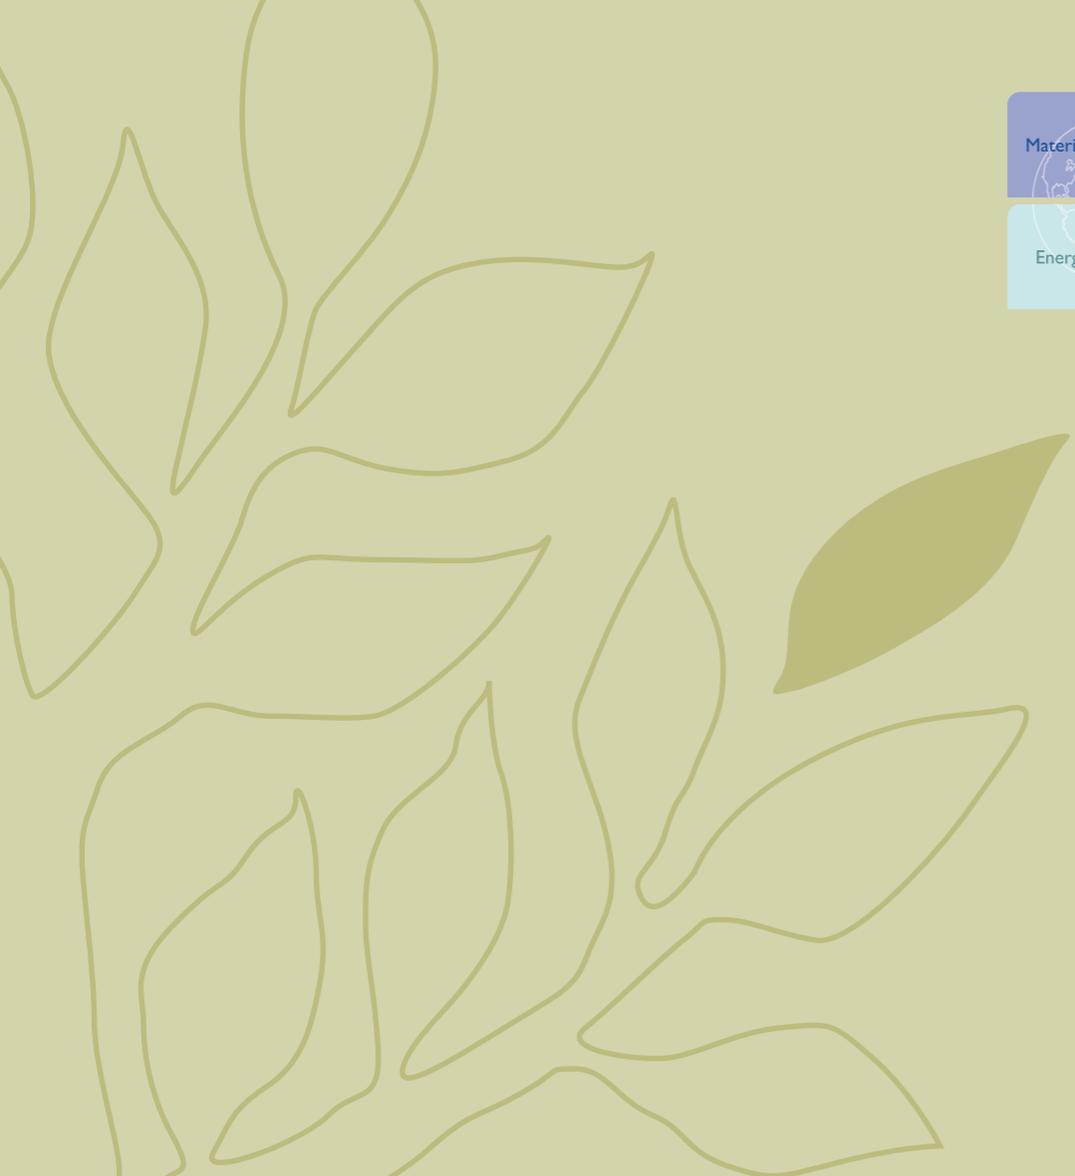

Up and Down.  
Backwards.  
Sideways.  
Feet up.  
Tilted back.  
Rocking gently.  
Shoes off.  
Leaning forward.  
Leaning back.  
Active.  
Deep in thought.

HÅG Capisco® follows your movements, and constantly inspires you to move into new and comfortable sitting positions – without you thinking about it.

In the pursuit of designing the perfect chair we took inspiration from the horseman's saddle and sitting posture – active and perfectly balanced. Combined with the chairs' height adjustability this encourages greater freedom of movement and variation.

We know that you too care about the ecological state of the world we live in today.

At the core of HÅG lies a strong dedication to protect the environment. This is why we use recycled plastic waste in the production of HÅG Capisco®. This chair stands proud as living testimony that it is possible to offer you a high quality product, whilst respecting the environment and protecting the well being of humans.

Your HÅG Capisco® is made with 100% renewable energy sources, contributing to limiting global warming. HÅG Capisco® is a **Responsible Choice**. Be proud of your chair, and thank you for sharing our vision and commitment to protect the environment.

**ISO 14001 Certification**

**ISO 14025 Certification** (the Environmental Product Declaration)

**EMAS** (Eco-Management Audit Scheme)

**Greenguard Certification** (HÅG is the first office furniture manufacturer in Europe to receive this certification)

HÅG Indiprint™

\*Individuality, creativity and colours are important elements to make us feel inspired. The innovative technology of HÅG Indiprint™ offers you unlimited freedom in designing your own fabric. Find any picture, pattern, logo or anything you can think of, and we will transform this into the fabric of our chair. You can enhance the feeling of atmosphere in a room, portray your personal style, or simply enjoy the fact that your chair is unique and truly feels like it is **your** chair.
